### Remote Inspections

Imagine doing your inspections without ever leaving the office! With **Virtual Safety Reports (VSR)** you don't have to imagine!

**Virtual Safety Reports (VSR)** is available to all our current Enterprise Inspection App customers. It is so easy to use and so convenient...especially in this day of social distancing and travel restrictions.

Just log into your inspection app via the web portal and click "Open Remote" session to get started. From there, you just enter an email or phone number for your remote inspector and in minutes, they're camera is connected to your inspection app.

They can walk the worksite and you see and hear everything they do. Have them stop and hold their camera steady and you can snap a photo that will automatically upload to your report.

It's truly that simple and again, it's FREE\* to our Enterprise Inspection App customers.

\* Up to 10 1-hour sessions per month per full-user license.

### Virtual Safety Reports (VSR) Demo

Completing inspections using VSR is incredibly easy...take a look at this demo video to see just how simple it is to use.

### Incident App Update

We've been so busy working to get Virtual Safety Reports out the door that we had to temporarily put a hold on updates to our [Incident App](#). However, we are back at it and should have the updates completed soon!

Updates will include the ability to document the following:

- Vehicle Incidents
- Property Incidents
- General Liability Incidents

We're also updating the options for collecting witness statements to include both electronic and audio formats as well as a few other updates. Stay tuned!

### Schedule Demo
