EHS SAFETY SOLUTIONS

OSHA Enforcement Activity

OSHA enforcement activity is on the rise and so are penalties for non-compliance. Following are just a few examples:

OSHA cites Ohio contractor $137,441 exposing residential construction roofers to deadly fall hazards for 6th time in 3 years. Read More

OSHA proposed $237,566 in penalties for a Florida contractor after finding employer willfully bypassed safety measures that led to worker's fatal electrocution. Read More

OSHA proposed penalties totaling $412,750 for an El Paso metal stamping manufacturer who they claim willfully exposed workers to amputation dangers; worker suffers severe injury Read More

Bergen County roofing contractor faces more than $600K in penalties for violating a settlement agreement to protect its workers. Read More

OSHA cites three employers nearly $239K in penalties for exposing workers, residents to asbestos at Missouri residential care facility. Read More

Multiple companies responsible for operations at a Georgia poultry facility face nearly $1M in proposed penalties after preventable nitrogen leak. Read More

OSHA QuickTakes

Stay on top of the latest OSHA news, initiatives, and products to help identify and prevent workplace hazards.

OSHA initiative seeks to protect workers in the **tank cleaning industry** from atmospheric and confined space hazards. More Info

OSHA met with **women in the construction industry** to discuss their workplace safety and job opportunities. More Info

Visit OSHA's **Flood Response and Recovery** webpage and list of storm recovery safety publications. More Info

The Massachusetts On-Site Consultation Program responded to multiple requests for **virtual respiratory protection training**. More Info

OSHA updates **Coronavirus Guidance**. More Info

App Updates

Safety Reports is currently working on updates to our apps using a new platform that will enhance our ability to add new features as well as improve on existing ones.

For example, with this new update, you'll see noticeable improvements in your ability to annotate photos (e.g., place circles/arrows in photo, crop photos, etc.).

Probably the biggest upside to switching to this new platform is it gives us the ability to create an **Enterprise App** which will allow access to each of our individual apps from a single app.

No more logging into multiple products, your employees will have access to any of the apps that your organization subscribes to (e.g. Inspections, Training, Incidents, etc.) all from a single app download!

Observation App

We have already transitioned our Observation App to this new platform referenced above.

Observation App

In order to utilize these updates, you will need to download the latest version to your mobile device.

Version 2.1 (Apple)
Version 2.2 (Android)

We expect to have all our apps converted to this new platform by the end of this year, or at the latest, first quarter of next year.

Did You Know?

Did you know that **you can add multiple cc's to our Inspection App?** Adding cc's will greatly simplify the process of sending your reports. Once added, you simply check a box next to the person's name to send them a copy of your reports.

To add or edit cc's go to your Administrative Account (Enterprise customers) and select "Company Maintenance". Next, select the edit icon next to the company and go to the email section to add or modify your cc's for that company.

If you're a non-Enterprise customer, you can add or edit cc's by logging into the Inspection App via the web and select "Settings". From there, you'll see a section titled "Add/Edit Company". Select a company from the dropdown menu and make your edits or additions as needed.

If you need assistance, just email our support team and they will help you out!

Job Bank

If you are using "Job Bank" to schedule your inspections, you'll want to check out the process of scheduling Performance Reports using the Job Bank feature.

We offer up to seven (7) of our most popular Performance Reports.

It's very easy to use, from your Admin Account, select your job or project from the Job Bank menu and near the bottom of the screen, you'll see a checkbox next to "Scheduled Reports". Click the checkbox to open this feature.

This is a great way to keep your team updated on important safety metrics for your worksites.

Contact our support team if you need assistance scheduling reports using Job Bank.

Hope to See You in Austin!

Hope to see everyone in Austin at the ASSP Safety Conference & Expo 2021 on September 13-15!

We'll be at Booth 1453 and would love for you to stop by and say hello and get caught up. We've added a lot of new features since we last met! Can't wait to see you!

Refer a Friend!

If you like our app, please take a minute to refer a friend. For each referral that becomes a customer, we will send you a Safety Reports 20 oz. Yeti Tumbler! It really is that simple! Refer a Friend
